Stock Market JavaScript Ticker

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

The scroller is built using JavaScript, PHP and CSS. It is using JavaScript for text rotation, CSS for customization (fonts, colors, border etc) and PHP for content generation. In order to integrate this into your site you must have minimal JavaScript or/and PHP or/and CSS knowledge, but we are offering full email support for installation. Ticker can be easily customized for fonts, colors, size and speed.
