Stocks Manager is a package for people who are going to make business based on shared funds. This script helps you to manage your investors, change share prices, pay dividends according to your needs. This script helps your visitors to buy and sell your shares and play on your market. Have a limited quantity of shares? no problem! You can specify your shares quantity and visitors will not be able to buy more than you have. No time to change prices every day? no problem again! Script can change prices by schedule.
