

Style-my-tooltips jQuery plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Small in size (3kb) script to enhance the look of tooltips. It works just like browser's native tooltips with few options and styling via CSS. By default, the script applies to any element with a "title" attribute like links, paragraphs, images etc. but you can easily set it to affect only specific classes.
