Surftree™ lets you convert data organized in a spreadsheet directly into an interactive tree of links to URLs, photos, etc on a web page. The tree can be up to 9 levels deep and can load quickly with over 65,000 nodes. Surftree™ custom GIFs and fonts. Also supports CSV files that have been zipped to improve download performance. It requires no server-side technology and is compatible with ASP, ASP.NET, Cold Fusion, HTML, Java, Perl and PHP-based server implementations.
