

Talking Secretary

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Create reminders based on any dates, days or events, and never forget again. This will say the day and time out loud for you, read messages to you, play MP3 files, play video reminders, and display customized messages based on days of the week, weekends, specific dates, or even monthly dates. Never forget birthdays, holidays, or meetings again, and you can even use this as an alarm clock. You can create reminders or alarms to occur on specific days of each week or weekend, on a specific date or time you choose, or even any specific day of the month or month end. This alarm and reminder software will help you always remember your daily tasks, meetings, or special occasions. The voice activation will announce the day and time for you, and will read customized reminder messages to you. You can choose reminders that will play MP3 files or videos, open documents, display messages and more. (Runs on all Windows systems).
