

Tapps

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Tapps is an advanced PHP poll system with some neat features: single and multiple answers possible, optional referer check, optional IP locking, optional cookie check (including an option to force the user to accept the cookie), optional email confirmation, database backend, paranoid user input validation, and a nice admin interface.
