

# Target Country by IP Address

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Target Country by IP Address is a complete web-based software that provides webmasters with the ability to redirect/restrict traffic based on the visitor's country of origin. This allows webmasters to promote their services and products in different countries where they have specific distribution and service capabilities in different countries.
