TCExam is a Computer Based Assessment (CBA) software system (also know as CBT - Computer Based Testing or e-exam) that enables educators and trainers to author, schedule, deliver, and report on surveys, quizzes, tests and exams. TCExam is Free Open Source Software, Web-Based, Platform Independent, Language Independent (includes translations in several languages and RTL support) and conforms to W3C Accessibility and Usability guidelines to provide equal opportunity to people with disabilities, including blind users. TCExam is Web-based and it can be installed on almost any server. For users (test-takers), all TCExam requires is a computer or PDA with a Web browser (i.e. Mozilla Firefox or Internet Explorer) and an Internet or Intranet connection to the TCExam Web server. TCExam automates all assessment phases: authoring, scheduling, delivering, and reporting. It's easy to use and do not require expensive hardware to run, nor additional commercial software.
