

Tejas - Premium HTML5 Video Player

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Tejas is built on jQuery and utilizes the very powerful ThemeRoller system for rendering its user interface. This means that changing the color scheme or images is as simple as just going to the ThemeRoller site and using the friendly GUI to change whatever you need. If you want to delve even deeper, it provides more options and flexibility so that you can create an UI you want without touching the plugin.
