Tell a Friend and Recommendation Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Very popular free scripts used on thousands of sites that take only a couple of minutes to implement! Tell A Friend Script v 1.x is a very basic form and script which allows your visitors to send a link to your site to up to 3 of their friends. Simple code for a popup window to display the form is also included. You can customize the email their friends will receive and you also receive notifications when the form is used. Tell A Friend Script v 2.x does the same as v1.x, but has a feature that includes the URL of the page from where the tell a friend link was clicked in the recommendation email. In the notification you receive, you also see from which page the form was invoked.
