The Vault

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Vault is designed to be a central storage system of small files, such as pictures or small utilities. It is possible to adapt it for large files, however this will have to be done manually. Currently The Vault has the following features: Admin Area, Member Profiles, Automatic Signup, Search Engine, Edit/Delete your files, and Stastistics. It all works on a MySQL database.
