CodeBrain's free 'YAK' applet is a small, fast animation and button builder with amazing flexibility and ease of set-up. Designed for both animations and mouse-over buttons, it features complete text control, sound support, three-state button action, and a wealth of thoughtful color, border, and control options. The Yak applet can also be used as a stand-alone image animator, with up to 100 images. The free download kit includes all graphics, sounds, ready-to-run stock demos, and full instructions.
