An anti-fraud and data-saving program. The package 'bookends' an order placed via a third-party credit-card processor, or your own shopping cart. Ideal for use with services like Revecom, Clickbank or PayPal. Saves more customer data. Bars many free web-based email providers. Bars popular anonymous proxy services. Saves to a flat-file database for easy import. Emails you the raw database entry. Can pass form data to other scripts of yours. Works with any web-based credit card processor.
