

Tigra Calendar PRO

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Tigra Calendar PRO is a flexible JavaScript Calendar offering high reliability and wide browsers support. This script allows your visitors to select any date from the page calendar with minimum number of clicks. Result is returned in single field with user defined name in any desired format. No more mess with date formats conversion. Tigra Calendar PRO is ideal for web application with database back end such as hotel reservation, ticket booking and others. Script setup will take 5 minutes in most cases.
