

Timed Self-Closing Popup Window Kit

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a small kit with popup window launching code on one page, and the code to automatically close the popup window after a preset period of time on a second page. This is basically a mini-tutorial, with very clear instructions and clean code in a working demo -- great for JavaScript newcomers.
