

# TiNSupport; web-based helpdesk chat software

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

TiNSupport provides you with the ability to have one-to-one conversations with many clients. The client interfaces with a single support person whilst that support person can be having several different conversations. Features of the helpdesk chat application include; 1. HTML formatting 2. Preformatted responses 3. The ability to ban chatters 4. The designation of support requests 5. The ability to save conversations 6. Multiple skins 7. The ability to collect and collate web stats using the content management system.
