

Today Header

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script is a Little Toy that displays the date, using an image to show the day. It uses your servers localtime function, but if you wish to display a time that differs, you can add or subtract hours by setting the number to add or subtract in the head of the script. It uses SSI to show the date, and you can edit the font size and color as you wish.
