Top Downloads

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script counts how many times a file has been downloaded. It keeps statistics of your downloads and can generate a TOP10 of your downloaded files. The administration function of this script allows you to delete, rename or change count numbers for your downloads. It can check a directory that you specify for new files and add it to a database. Count numbers and TOP10 can be included into a HTML document.
