

# Torgo Counter

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This counter is a simple text user counter. It creates one file and supplies the same count for each page. It is designed to count overall hits to a site, not to count hits to individual pages. The special thing about this script is it won't count a single user multiple times.
