Total Pins

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script is designed to cope with pincode billing systems. It adds a new dimention to your current pin systems. Currently an ibill module is available, however others could be coded per request. The user can create an account free for X days (definable) which then goes on to be billed onto an ibill pin account.
