Travel Deals Listing Script by StivaSoft

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The easiest way to manage online content on a travel agency website: the script provides simple and easy way for web admins to manage online content on travel agency websites: add/edit/delete travel deals, flight details, booking terms, gallery and description. Once installed it can be used without any programming skills. You can easily add your own booking terms, manage email notifications, paid submissions and meta tags. You can also translate the travel deals script and add multiple languages on the front-end. Available by default are 2 layouts, 3 front-end views, filters, Google maps integration and more. The travel script has built-in functionality for advertisers - paid submissions and owners accounts. Users can post and manage their own classified ads, make them featured and pay for listings. The travel script is integrated with Paypal gateway for easy online payment processing. Listing prices are defined as per admin preferences. The setup is really easy and quick.
