

Travel Tip of the Day

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script was originally conceived for a group of travel zines from the same publishing company to create interesting links to the sister publications. Basically it outputs a text in a frame or table (depending on the page setting) that rotates daily using the content of a data file that can be expanded by the participating sites with new tips. It could easily be adapted to other themes such as Tech Tip of the Day or Money Tip of the Day, etc.
