# Triple Dot Cookies

**Address**                    {value_address}

**Contact Person**             {value_contact_person}

**Mobile Number**              {value_mobile_number}

**Email**                      {value_email}

This is a demonstration script of the 'triple dot cookie' vulnerability in Microsoft Internet Explorer and Netscape. Triple dot cookies can be used to completely by-pass the domain restrictions for cookies in those browsers.
