TweetDis Wordpress Twitter Plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

TweetDis is a Wordpress plugin, that will display a floating "call-to-action" above any piece of text you choose. Furthermore, with the new plugin version, you can place any bit of information into NEW TWEET-BOXES! And once you click on the text, the plugin will automatically create a tweet out of it as well as place the other piece of text into tweet-box. (In other words, TweetDis makes any piece of text "tweetable")
