

UAS - User Authorization System

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The User Authorization System (UAS) is a fast and easy way to create a membership system on your site. UAS is easy to set up and requires no PHP or MySQL knowledge. Even though it's simple to use, it has a robust set of features including: Automatic or manual account approval for extra security; protect a single membership page from unwanted access; automated password recovery; log in tracking; password request tracking; automatic email notifications to webmaster and user; and an automated set up. UAS is perfect for small websites looking for a fast way to offer paid or free memberships.
