

UBER for Courier Service

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Uber for Courier Service is a simple mechanism to connect users with their nearest courier service providers. People look for courier service providers when they need to send over a piece of mail or package urgently to a distant place. Given the short span of time available, they might be desperate to locate their nearest service provider. This app gives them precisely that. Once the user clicks the "Pick my Parcel" button, he gets assigned a courier service provider instantly and the package or letter is picked from his house. Using our turn-key UBER for X script, you can easily get any service in. If you have a niche UBER for X requirement, shoot a mail to : & we will tailor make it for you instantly !
