NEW - Lower Price NEW - Support for Mobile and Tablets NEW - v3.5 just released. Our best version ever! Ultimate Locator is a PHP/MySQL based Store Locator solution that allows website owners to install a robust, professional-grade store locator or dealer locator system on their own website. Allow your visitors to search for store locations, dealers, members, outlets, ATMs or anything else you can think of, just by entering their zip code. Visitors can also search by State, Name, City or Country. Supports Google and Yahoo maps with driving directions, contact info, links and more for each location. Ultimate Locator is jam packed with useful and practical features and is in use on hundreds of websites today. Comes with an advanced online Admin Panel where you administer the entire locator system from your web browser. View our site for online demos of the software in action.
