

Universal Admin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Universal Admin gives you full site administration capabilities right from the browser. Once authenticated, you get a shell prompt right inside the browser. Additionally, you get a file upload option. It works as a substitute for telnet and ftp. You may find it useful under the following situations: Your ISP does not provide you a telnet; You need to manage your site frequently from behind a firewall or proxy, where running a telnet or a ftp is not possible.
