UploadBean is JAVA component (JavaBean) that allows you to upload files. This bean can be integrated in any JSP/Servlets application. You can store uploaded files in a Folder, a ZIP archive, a Database or in Memory. Restrictions such as file size limit, blacklist and max. uploaded files are available. You can also be notified when a file is uploaded. For database option, it should work under any RDBMS supporting large column or blobs. It has been validated under Oracle8i, Oracle9i, IBM DB 7.2, PostgreSQL 7.3 and MySQL 3.23.51, MSAccess. Chinese, German, Russian and french translations are available. WebLogic 7, WebSphere5 , SunONE 7, ServletExec 4.1, and Tomcat 4.1.x support added. Add-ons section includes real-time progress bar, upload servlet, email notifier and Oracle Blob db store.
