Usenet Web Gateway

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This gateway consists of programs running on a web server that allow users to read usenet messages, post usenet messages, search the messages, etc. from a web browser. No special news reader is required to read usenet with this software. Deja.com and others offers such a (non-GPLed) gateway between Usenet and the WWW. Usenet Web Gateway written in Perl.
