

Using Include Files

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

As a website gets bigger it can become more difficult and time consuming to maintain. One way to help manage this is with the use of include files. Using includes will cut down on time by limiting the amount of code or html you will have to add to new pages or time spent updating existing pages.
