Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

UtoresApp is the new way in the perl community portals. Is designed to run smoothly in the unix/linux and Windows environment with no mysql database yet, with a lot of mods and features. Requires minimal or knowledge of perl coding and the installation is automatically by our install script. UtoresApp is another product of Unix Coder team. UtoresApp stands for Security Web Automated Perl Portal, because that is the idea behind it. You should be able to set this site up, and have to work minimally to keep it up. Included are topics, forums, instant message, who's online, download section, link section, autoload modules, automatic upgrades, and more. Have Fun !
