VB 3.0 Forum RSS Feeder

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Forum Feeds are a great way to keep your forums up to date on news, and best of all active! With this mod you will be able to have our news streamed right into your forums as individual threads. Our news is updated 3-4 times a day, and anywhere from 4-10 articles are published on our site. With forum feed streaming, everytime we post a new article, your site will automatically grab the RSS and post them as new threads on your forums!
