

vBulletin Chat Module of 123 Flash Chat

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

It can add a live chat room to vBulletin seamlessly, multiple skins and user integrated. A chat room makes vBulletin more interactive, it will boost traffic as well as revenue to your vBulletin, and will increase vBulletin user loyalty. Chat Features: 1. Users integrated: User database of vBulletin can be fully integrated to Chat. 2. Mutiple Skins: Nine skins are available to fit in your forum. 3. Lobby and private chat. 4. Admin Panel: Two ACPs: You can define what kind of chat status to be listed on vBulletin, the open mode of the chat window, the server mode, etc. in the vBulletin ACP, and customize the chat room in the chat Admin Panel. 5. Other features: Avatar, smilies, flash emotions, post-notifier, etc. So what the module can add to vBulletin? It adds a chat button which links to a fabulous chat room, with multiple skins and multilingual support, written in flash or HTML/Ajax, and a visual setting panel, etc. Recent changes: the backend management is enhanced.
