

# Ventrino PHP Banner, Text and Traffic Exchange Script

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Based on the original traffic exchange script created in 1994 this script continues to grow in popularity. Unrivalled in it's ability to create and maintain huge communities, the Ventrino traffic exchange is designed to keep members returning to your site regularly. Accepted as the de facto standard it's industrial strength design and growing feature list make it more popular than ever. The only script offering a busy forum populated by like minded developers and users alike it provides effective and helpful community response to issues 24/7. Supported by third party developers with add-on modules covering all exchange related subjects. It's low cost of implementation and familiarity make it the easiest script to setup and ensures rapid membership growth (see <http://uhit.us/qh1> for current script discounts and special offers)
