Organize your videos into a professional video gallery that supports Windows Media, Real Media/Player, QuickTime, Flash (with exclusive Smart Play to make your video play smoothly) , MPEG-4, and MPEG-1. Embed the videos in a web page, play in a standalone player, or allow download. Setup playlists to show more than one video without web site visitor intervention. Supports progressive download and streaming video. Support audiences with different speed Internet connections. Easily let visitors know if their PC or Mac has an up-to-date media player. Easy to setup. The videos can be located on any web or streaming server on the Internet. Includes video usage statistics to show what videos, playlists, etc. have been viewed or downloaded. You can customize the wording, the layout, and the graphics used in your video gallery. There are 5 basic templates to accommodate simple to complex video galleries. Allow search of the video descriptions to find a specific video.
