Email	{value_email}

Building an interactive video blog has never been easier than with ViScript. ViScript is a interactive piece of software which enables you to quickly build your own video blog in a matter of minutes. Even with no programming experience ViScript makes building a video blog easier then ever. ViScript 2.0 can be fully automated. Put it on autopilot so you no longer have to spend your valuable time searching for relevant videos. Just pop in relevant keywords and the number of video posts you want published in a specified timeframe and let ViScript 2.0 do the rest. Your time is freed up to focus on more important tasks. NOW WITH ad support and tracking!
