

visiPerl+

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

visiPerl+ provides you with all the tools to write Perl scripts. Although visiPerl+ leans toward CGI based development, many use it to develop various console based utility scripts. Some of its main features include: Built-in mini-Web Server, Built-in FTP Client, Document properties, Perl Explorer, Syntax Highlighting, Testing and Debugging, and much more.
