

VisualSoft Mail

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

VisualSoft ActiveMail is a server-side COM component that helps send mail to specified recipients. It is an Active Server Component that can be used only in Active Server Pages (ASPs) without any software to be required. Using the VisualSoft ActiveMail component, the user can upload an attachment with the mail. It also facilitates Carbon Copies (CC), Blind Carbon Copies (BCC) and mails to multiple recipients. It also provides the feature of setting the expiry time for a mail.
