Vote It Up Wordpress Plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This plugin adds voting functionality for posts. This function is similar to Reddit or Digg, in that visitors can vote for and against. Guests can also vote for posts. This functionality can be disabled as well. A widget can be displayed showing the most voted posts on your blog, giving further exposure to your popular posts.
