VS Office is a groupware application designed to be used in small to medium sized office settings. Every component is designed to make the exchange of information within an organization simple and efficient. Features include schedule with calendar, timesheet, e-mail with address book, To Do List, file management, BBS, links, notes, and news. Individual and group access permissions can be set up. VS Office can easily be customized for each organization's needs with software development tools, such as Visual Basic and ASP, and can easily be integrated into existing computer systems as well. Free 90 day trial available.
