

wbExam Convert

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

As a complement to wbExam, wbExamConvert extends the ease of new quiz, exam, or test creation and overall usability of the wbExam plugin engine. To use the converter, simply create a spreadsheet with columns of question type, questions, answers and rationale. Export it as a csv, and run wbExamConvert perl script against the file. It fills in the php formatting, question array codes and more.
