| **Contact Person** | {value_contact_person} |
| **Mobile Number** | {value_mobile_number} |
| **Email** | {value_email} |

ASP.NET membership is designed to enable you to easily use a number of different membership providers for your ASP.NET applications. NetPass is one of the Membership Providers and it's freely available for WDK6 users through WDK.CommunityServices.Mem bershipProvider class. NetPass mimics standard MembershipProvider abstract class, that available within Microsoft .NET Framework 2.0.
