

Web chat solution

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Web chat solution is a product which is similar to Whatsapp/Viber. The configuration is very simple, the only thing that is necessary is to get a server and upload files. With our product a customer doesn't require any additional development or design, it will bring benefits after its launching. Web chat solution will let the user to launch a public web chat with all the needed features, which are as follows: - private or multiuser chat - registration with Facebook, Twitter, Google and Email - sharing videos and photos - Anonymous chat with no registration needed - custom chat room names and many more Moreover, all the further support with the product will be provided with our team. Installing this chat you have an opportunity to receive the same one in future for Android and iOS which are under development now for free.
