Web Education System (Web Tutor) script is a revolutionary new piece of software which helps improving your visitors knowledge or improve employees qualifications. The script can be used for for different purposes but it's made for companies and general public to improve qualification and their knowledge Some of the features include: - Convenient Tools for Content Management - Intuitive working environment through the usage of icons and buttons - Create tests - Check, evaluate test results - E-tutor - Educational materials, sorted by topic, containing text photo and video materials. The new staff can be fast and easilyintroduced to their job. - Questions and Issues - File Storage - Events Calendar - Personal Notes - Events History - Goals and Tasks There are a lot more features but unfortunately the space for description here is limited. Please visit the author's website for more information, demo and screenshots.
