Web Log Suite

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

Web Log Suite is a powerful log analyzer. Highly detailed and easily configurable reports can be generated in various languages output to screen, ftp, email, file or network directories. Web Log Suite supports more than 25 log file formats and can recognize log file formats automatically, extract compressed log files (Zip, GZip, and Bzip2) and read multiple log files.
