AfterLogic Corp is the industry leader in developing modern AJAX-enabled applications, as well as professional networking and data processing components for ASP.NET, ASP and PHP platforms. AfterLogic's products, such as MailBee WebMail and MailBee.NET Objects, have been selected and implemented by thousands of businesses all over the world, to great acclaim. AfterLogic's Professional Services department applies the same outstanding quality to custom projects that we put into our products. By working with AfterLogic, you gain immediate access to expert developers with years of experience not only in Internet messaging, but also in developing a wide variety of web-based systems. Benefits to be derived include affordable rates, shorter development lifecycle, team scalability, reduced risk, improved quality and dependability.
