Deliver general purpose and specialized 2- and 3-dimensional charts as applets or interactive server-generated images (PNG, GIF, JEG, SWF, SVG, PDF, TIF, WBMP) to web browsers and mobile devices, or embed charts into stand-alone Swing applications. WebCharts3D software includes WYSIWYG (What You See Is What You Get) designer that can be easily incorporated into your own applications to provide your end-users with chart editing capabilities.
