Starcom Website Analyst, the definitive software program for better search engine rankings, now available for both personal and commercial use at the same price. We completely understand that you want your website to appear not only on the first search results page of all major search engines, but you want it to appear at the upper portion of the first page. To help you achieve just that we have created Starcom Website Analyst. Starcom Website Analyst provides you with detailed information of your website's html, CSS and images and thus assists you in knowing what you need to do to achieve better search engine rankings for your website. That is not all; your Starcom Website Analyst also offers recommendations exclusively for all websites analyzed through it and checks for successful optimization steps.
