Website Monitoring Application

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Monitor all your websites with this free website monitoring application. Sits in the system tray, alerts you with an icon notification and an email if your website is down or running slowly. Runs as a service on NT and above so it will run even if not logged onto the machine. Easy one.
